

Envirotainer station network as per August 2018

EXTERNAL USE

The current standard conditions per container type are:

- A standard condition for RAP e2 remains to be Round Trip.
A standard Lease Package is Round Trip11, this Lease Package Type includes eleven Package Days. Announced exceptions to the above are exceptions enabled in the Envirotainer online booking portal named E-strix.
- A standard condition for RKN e1 remains to be Round Trip.
A standard Lease Package is Round Trip11, this Lease Package Type includes eleven Package Days. Announced exceptions to the above are exceptions enabled in the Envirotainer online booking portal named E-strix. Exceptions enabled in E-strix:
 - Currently the following stations in the Americas are open for Network 9 from all stations in Europe: EWR, JFK, LAX, ORD, SEA, SFO and SJU.
 - Currently all stations in Europe are open for Network 9 from all stations in the US and Canada.
- A standard option for RKNt2 and RAPt2 containers (t-containers) are Network Lease. A standard Lease Type for t-containers are Network 9 and includes nine Package Days. T-containers can be returned to any station with t-container capabilities (see table below).

Booking system e-strix is continuously updated and will show which containers are available for release and return at what stations.
